

SOS Grading System/Student info

SOS grades are changing every day depending on a student's performance, study habits, and test taking skills. This is what you need to know:

1. The teacher will grade students' work on a daily basis.
2. If a student will fail the lesson(s), he/she may send a message through the SOS message system asking to rework the lesson. However, it is up to the teacher to decide if a request will be granted.
3. Quizzes or tests are not allowed to be retaken, only under special circumstance the teacher may allow to retake a quiz or test.

In addition to daily SOS grading, the teacher will check students' work in the SOS system two times per quarter and see if you are on-time or behind your schedule at the end of each quarter. The information will be entered to the Grade Quick System for the Progress Report purposes. If you are behind the schedule, you may lose up to 10% per quarter. Thus, it is very important to do all required assignments on a daily basis. Exceptions might be considered by the teacher, if you communicate your needs or problems in advance.

Extra points

If a student would like to improve his/her grade on any subject, the student may receive up to 25 points by taking notes on a daily basis and presenting them to the teacher at the end of 1st, 2nd, 3rd, and 4th quarter. The teacher will look for accuracy and the length of notes for each subject (at least one page per lesson). Also, if a student will read one book for each subject per semester, he/she may get up to 25 points for each subject (no less than 50 pages for 3rd-6th grades; 150 pages for 7th - 8th grades; 250 pages for 9th -12th grades), write a summary (150 words for 3rd-6th grades; 350 words for 7th -8th grades; 500 words for 9th -12th grades). Essays should be sending to the teacher through the message SOS system.
